GUIDELINES

1. Annually, the Governance Committee will review and assess the board composition based on a Board Skills, Competencies and Attributes Matrix and determine where there are any potential gaps in skills and experience.
2. Additionally, in reviewing the board's composition, the committee will consider diversity, as defined in this policy, to maintain an appropriate mix and balance of diversity of representation.
3. The outcomes of this review are used to provide guidance to the Nominations Committee and forms the proposed recruitment criteria that are published to the membership as part of the call for nominations for candidates for the annual board elections.
4. The Governance Committee may recommend diversity goals where there is a concern about a specific diversity category not being effectively represented on the board. This will transparently form part of the published recruitment criteria and will be integrated in all election communication materials and media.
5. In considering diversity goals, the Governance Committee will take the following into account:
 - i. The current and potential future composition of the board (based on elections);
 - ii. the strategic direction of the credit union and skill sets needed to guide it effectively; and,
 - iii. an assessment of what skills and perspectives are needed or missing to effectively execute on our mission, vision, values.
6. The board will be responsible for approving any diversity goals deemed necessary to achieve the optimum level of diversity on the board, as brought forward from the Governance Committee.
7. Where diversity goals are being pursued, the Governance Committee may determine that a greater positive weight, based on the diversity category, is applied to the Candidate Scoring Matrix utilized by the Nominations Committee for the purposes of endorsement. In such circumstances, any approach to weighted ratings to achieve a diversity goal will be balanced with the need to ensure fundamental governance qualifications and skills are being met. This is to ensure that the principle of recommending the best qualified candidates to the membership is not inadvertently compromised.

MONITORING & REPORTING

The Governance Committee will review this policy and its effectiveness annually and recommend any necessary revisions to the board for approval.

The Governance Committee will report annually to the Board and the membership on its efforts to support diversity, equity, and inclusion in its governance practices.
